Hon. Rey T. Uy
City Mayor
City Government of Tagum

Thru:
JANYLENE A. PALERMO, MM
City Human Resource Management Officer

JOSEPH NELSON S. BRIONES
City Information and Communications Technology Management Officer

Dear Hon. Uy,

Greetings and peace to your good office.

I am writing to apply for a programmer position at City Government of Tagum. I am a graduating Bachelor of Science in Information Technology student. I am an experienced web and mobile developer with practical experience. As an experienced programmer with a passion for innovation and problem-solving, I am excited about the opportunity to contribute my skills and expertise to your team.

With a background in programming languages such as Python, PHP, and C++, I have successfully developed and implemented complex software solutions using frameworks such as Django and Laravel. My ability to analyze user requirements, design efficient algorithms, and write clean, maintainable code has consistently resulted in delivering quality software products on time and within budget.

As part of my academic requirements, I worked as a full-stack developer on a Predictive Analytics and Geospatial Analytics for Proactive Emergency Management System in Panabo City, where I handled frontend development, backend integration, and system functionality.

I am eager to contribute my technical skills and continue learning in a professional environment. I would welcome the opportunity to support your office's initiatives in system development and digital services.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience align with your needs in more detail. Please find my attached resume for your review. I look forward to the possibility of joining your team and contributing to the continued growth and success of City Government of Tagum.

Sincerely yours,

Estelo C. Galendez Jr.
