Activity 1

Targeting the Aims!

Name: _____ Date: _____

Instructions: Carefully read and answer each part of the worksheet. Write your responses clearly on the spaces provided. Make sure your answers consider your students' abilities, interests, and individual differences.

Guide Questions

1. **What do you want to teach?**
   Write the specific topic or lesson you plan to discuss.

2. **How will your students learn it?**
   Describe the methods, strategies, or activities you will use to help students understand the lesson.

3. **How will the results be measured? Write your objectives based on the following domains:**
   - Cognitive
   - Affective
   - Psychomotor

4. **What meaningful learning activities can you give to your students to learn the lesson?**
   Provide specific classroom activities that will help students learn the lesson effectively.

5. **What indications or evidence** you expect your students to show you at the end of your lesson? State the expected outcomes or results that will prove students have achieved the lesson objectives.

6. **How do you plan to manage your classroom?**
