PROSPER D. DAJALOS JR., J.D.
Panabo City Disaster Risk Reduction and Management Office
Brgy. JP Laurel, Panabo City, Davao del Norte

Dear Mr. Dajalos,

Greetings!

In reference to our previous environmental scanning request, we are pleased to inform you that our Capstone Project, entitled "**RescueTrack: Predictive Analytics and Geo-Spatial Analytics for Proactive Emergency Management in Panabo City,**" is now in its deployment phase.

In connection, the undersigned would like to request your good office to deploy our developed system from **February 16, 2026** to **March 27, 2026**.

If given your approval, we will conduct a user training session to orient designated users on the system's features and functionality. During the six-week deployment period, users will be requested to utilize the system and participate in acceptance testing. At the conclusion of the deployment phase, users will be asked to evaluate the system's acceptability and usability through a survey questionnaire.

Your approval will greatly contribute to the successful completion of this Capstone Project.

Please be assured that the system deployment is intended solely for academic testing purposes. Your organization will not own, deploy, or be required to adopt the system. The system will not be proprietary to the company at any stage, thereby avoiding any legal, financial, or operational commitments. Should you be interested in adopting the system in the future, you may coordinate with the DNSC Institute of Computing for further discussion.

Furthermore, all data collected during the deployment shall be handled in accordance with the Data Privacy Act of 2012 (RA 10173) and shall be used solely for academic and evaluation purposes.

We are hoping for your kind consideration and support.

Thank you, and Godspeed!

Respectfully yours,

KEITH LAURENCE P. AÑASCO
